EDUCATIONAL QUALIFICATIONS

B.Tech, Computer Science	Bennett University, The Times Group	8.17 CGPA	2027
Class XII, CBSE	DAV Public School, Sector 49, Gurgaon	84.70%	2023
Class X, CBSE	DAV Public School, Sector 49, Gurgaon	92.40%	2021

INTERNSHIPS

VGI Sooprs Technology, Gurgaon — Web Development Intern — *July '25 – July '25*

- Developed **3+ responsive landing pages** using modern frontend technologies, ensuring smooth UI behavior across devices.
- Implemented **UI/UX designs** into functional interfaces using **5+ tools**, improving layout consistency and visual structure.
- Collaborated with the frontend development team to integrate components, test user flows, and resolve UI issues across browsers.

Easy Data Analytics Technology, Noida — Data Science Intern — *June '25 – July '25*

- Built a **universal binary classification system** using **5+ machine learning technologies**, enabling customizable business use-cases.
- Applied **data processing, feature engineering, and model evaluation** techniques across **multiple structured datasets**, ML pipeline.
- Implemented the solution using **Python**, **Scikit-learn**, **Pandas**, **NumPy**, and **Matplotlib**, integrating **end-to-end data workflows**.
- Collaborated with a Data Scientist mentor to refine the model's usability, incorporating **model selection, hyperparameter tuning**

Binary Global Limited, New Delhi — IOT Developer Intern — *20 May '24 – 19 Jul '24*

- Developed and maintained IOT software applications using programming languages such as **Java, Python**, and frameworks such as **Spring and Django**, leading to enhanced system functionality and performance.
- Collaborated with cross-functional teams to implement efficient algorithms and **data structures**, optimizing application scalability.
- Conducted code reviews and testing to ensure **code quality** and **application security**, significantly improving overall project outcomes

PROJECTS & RESEARCH PAPERS

Academic Projects

Audio Analysis and Beat Prediction System — *October '25*

- Built an AI-powered beat prediction and music generation system using **Python**, **Librosa**, and **signal-processing** techniques, enabling real-time audio analysis and melody synthesis.
- Implemented **FFT**-based feature extraction, onset/beat detection, and automatic composition blending to produce complete AI-generated music tracks.

College recommendation System — *April '24*

- Choosing the right college can be overwhelming, but this system simplifies the process by filtering colleges based on JEE Score, Course Interests, and Budget.
- With smart sorting assistance, one-on-one interaction, and placement insights, this ensure that students make informed decisions with confidence.

Real time Analog Clock + Weather Enthusiast — *December '23*

- The objective was to develop a user-friendly analog clock interface that also displayed digital time alongside providing real-time weather updates for a specified city.

Data Management System — *January '23*

- A SQL-based Python data management system provides robust capabilities for efficiently querying, manipulating, and managing relational databases using SQL commands within a Python environment.

POSITIONS OF RESPONSIBILITY

Bennett University

Event's Head – UPHORIA '25 — *Feb '25*

- Event **POC** and **Head** for Bennett University's annual cultural fest.

Organizing Team – UPHORIA '24 — *March '24*

- Member of Events team for Bennett University's annual cultural fest.

Performance Head, Advaita Music Society — *Sep '24 – Aug '25*

- Managed all events for Advaita music society and made them stage ready to ensure smooth performance.

Member of performance team at Advaita Music Society — *Oct '24 – Aug '25*

- Performed for the club at many college events like Cultural Night, Convocation '23, Bennovate, etc.

DAV Public School, Sector 49, Gurgaon

Prefect, Cyber Brigade — *Jul '21 – March '23*

- Managed and Organized tech event E-Colosseum'22

EXTRA-CURRICULAR ACTIVITIES

Advaita Music Society

- Secured 3rd position in music competition – **Antaraa 2.0**
- Recognized Bennett University at battle of the bands competitions in different colleges.

Certifications

- **Deloitte** Data Analytics job simulation - Certification
- **Google** Data Analytics - Certification
- **Google** Agile Project Management - Certification
- **Google** Operating Systems and You: Becoming a Power User - Certification
- **Google** Project Planning: Putting It All Together - Certification
- **Python** Data Structures - Certification
- Completed 30+ certification on topics like **Data Analysis**, **Data Visualization**, **Generative AI**, **Data Mining, etc.**
