

MOKSH SHARMA

Gurgaon, India | moksh11072005@gmail.com | +91 9870306895 | [LinkedIn](#) | [Portfolio](#)

PROFILE

AI & Machine Learning Engineer with experience building LLM-powered applications, AI automation systems, and scalable ML pipelines. Skilled in Python, FastAPI, SQL, and cloud-based AI solutions. Proven ability to convert complex business problems into data driven AI products, improve operational efficiency, and collaborate across engineering and product teams.

TECH STACK

Programming Languages: Python, SQL (MySQL), PostgreSQL

Machine Learning: Model Evaluation, Feature Engineering, Model Evaluation, RAG, Prompt Optimization, AI Architecture

Frameworks & Libraries: Scikit-learn, Pandas, NumPy, PySpark, Flask, Streamlit, TensorFlow / PyTorch, Matplotlib, Seaborn

Cloud & AI Platforms: Git, GitHub, AWS, Azure AI, Jupyter Notebook, Power BI

Soft Skills: Analytical & Problem-Solving, Strong Communication Skills, Adaptability & Learning Agility.

EDUCATION

Bennett University, Times Group, Greater Noida

Aug 2023 to Aug 2027

B.Tech, Computer Science Engineering - 8.17 GPA

DAV Public School, Sector 49, Gurgaon

Apr 2010 to Apr 2023

Class XII, CBSE - 84.7%, Class X, CBSE - 92.4%

WORK EXPERIENCE

Junior AI Developer, Cache Digitech Pvt. Ltd.

Jan 2026 to Present

New Delhi

- Worked across Data Analysis, Full Stack Development, and Generative AI to design and build scalable business solutions (Agentic AI Automation), contributing to platforms like TechBank.Ai, Email Intelligence, and Cache CRM.
- Developed and optimized AI-driven workflows including resume parsing, email ingestion, and intelligent data processing using FastAPI, PostgreSQL, Microsoft Graph API, and LLM integrations (Ollama/OpenAI).
- Transformed raw business and technical inputs into structured dashboards, web interfaces, and automation pipelines, improving internal decision-making, workflow efficiency, and system scalability.

Web Development Intern, VGI Sooprs Technology

Jul 2025 to Jul 2025

Gurgaon

- Developed 3+ responsive landing pages using modern frontend technologies, ensuring smooth UI behavior across devices.
- Implemented UI/UX designs into functional interfaces using 5+ tools, improving layout consistency and visual structure.
- Collaborated with the development team to integrate components, test user flows, and resolve UI issues across browsers.

Data Science Intern, Easy Data Analytics Technology

Jun 2025 to Jul 2025

Noida

- Built a universal binary classification system using 5+ machine learning technologies, enabling customizable use-cases.
- Implemented the solution using Python, Scikit-learn, Pandas, NumPy, and Matplotlib, integrating end-to-end data workflows.
- Collaborated with a Data Scientist mentor to refine the model's usability, incorporating model selection, hyperparameter tuning.

IOT Developer Intern, Binary Global Limited

May 2024 to Jul 2024

New Delhi

- Developed and maintained IOT software applications using programming languages such as Java, Python, and frameworks such as Spring and Django, leading to enhanced system functionality and performance.
- Collaborated with cross-functional teams to implement efficient algorithms and data structures, optimizing application scalability.
- Conducted code reviews and testing to ensure code quality and application security, significantly improving overall project outcomes.

PROJECTS

Audio Analysis and Beat Prediction System

- Built an AI-powered beat prediction and music-generation system with Python and Librosa,
- using FFT-based feature extraction and onset/beat detection for real-time analysis and AI-composed tracks.

TechBank.Ai

- Developed an AI-powered recruitment platform with LLMs, FastAPI, and SQL that automates
- resume parsing and job-description analysis, unifying uploads, email, and CSV for explainable matching.

BI Dashboard / Analytics Platform

- Designed and built a custom BI dashboard using Python, SQL, and Excel pipelines to turn raw data into insights,
- with end-to-end workflows for dataset upload, dynamic dashboards, and decision support.

LICENSES & CERTIFICATIONS

Data Analytics job simulation, Deloitte - [Certification](#)

Data Analytics, Google - [Certification](#)

Operating Systems and You: Becoming a Power User, Google - [Certification](#)

Project Planning: Putting It All Together, Google - [Certification](#)
